FI Compliance Solutions Adds Compliance Module to GRC Pro

KING OF PRUSSIA, PA, June 1, 2011 – FI Compliance Solutions, announced today the release of GRC Pro's Compliance module, designed to help banks and credit unions reduce the burden of compliance.

"From day one our ultimate vision was to include a compliance module with GRC Pro," says Eric Strohl, President & CEO of FI Compliance Solutions. "Institutions are overwhelmed with existing regulations, not to mention the unknown changes coming with the Dodd-Frank Act. Compliance personnel are overburdened and budgets continue to be cut."

GRC Pro's compliance module will act as a force multiplier for compliance personnel at a very reasonable price point saving our customers time and money. The module will provide a variety of compliance related information including a knowledge base, compliance training, compliance calendar, and webinars on regulatory and compliance topics. Institutions will also be able to submit questions and receive answers from compliance experts within 24 hours. Advertisements and policies can also be submitted to ensure compliance with laws and regulations.

"We are thrilled with the new addition of this module within GRC Pro. The response from our user community has been overwhelming" says Strohl. Our commitment to provide cutting edge Governance, Risk Management, and Compliance solutions continues to solidify our position as a leader in the financial services community.
